## EDWARD R. JAMES COMPANIES

Development is more than bricks and mortar. It is the privilege and responsibility of changing the landscape for generations to come. Development is more than building on the land. It is about building to the land, with thoughtful planning, contextual architecture and integrative landscaping that together respect and enhance the environment, and provide lasting value. It is an iterative process in search of an optimal solution, involving people, expectations and commitments. Development requires respect for the people we serve, the communities we build in, and the employees and professionals we work with. Throughout the process, development requires a commitment to excellence, so that we may fulfill our mission: TO EMBRACE THE QUALITY OF LIFE FOR OUR RESIDENTS AND THE COMMUNITIES IN WHICH WE BUILD.
